

FACT SHEET: How to renew or replace a New Zealand Driver Licence

Driver licence numbers cannot be changed in New Zealand. When you renew or replace your driver licence, you will be issued with a new 3 digit version number, and your old licence will be automatically cancelled. In New Zealand, both the licence number and version number are required to approve most credit and non-credit applications. Driver licences can be replaced if they have been lost, stolen, misused or potentially compromised.
